SWISS DESIGN

FROM THE INVENTORS  
OF THE IRONING PRESS

Cut your ironing time in HALF

45 KG OF AUTOMATIC PRESSURE

ELECTRONIC  
TEMPERATURE CONTROL

INTEGRATED LIGHT

#### THE VAPOJET SYSTEM

The Vapojet spray system dampens clothes and creates steam thanks to the heat from the heating shoe. It uses regular tap water.

#### INTEGRATED SLEEVE BOARD

The elnapress 720 features an integrated sleeve board for easily ironing shirt sleeves, hard to reach areas and small items such as baby clothes.

#### NON-STICK HEATING SHOE

The large heating shoe (7x the surface of a regular iron), together with its 45 kilos of automatic pressure, offers you incomparable comfort, whether you're ironing a jersey T-shirt, a delicate hand knit sweater or a three-piece suit. No unwanted creases, no shine, and fabrics do not lose their shape. Just a perfect, professional finish.

# elnapress 720

## elnapress 520

The elnapress 520 features the latest technology: the Vapojet system, integrated light and Peraluman heating shoe.

## elnapress 120

The elnapress 120 offers all the pleasure of quick, professional-quality ironing. It has the same ironing capacity as the other models, at a very attractive price.

*Sit...*  
*Relax...*  
**IRON**

## SIMPLE

Take your elnapress out of the cupboard, place it on a table and plug it in. In the time it takes you to settle yourself comfortably, it's ready to make your life easier. No board to set up, no distilled water to pour, no noise: what a pleasure! It's easy, quick and enjoyable. Save wear and tear on yourself – just sit down, relax and iron.

EASILY IRON SEVERAL LAYERS OF CLOTH.

## QUICK

Once you're familiar with using it, the elnapress lets you really save precious time (up to 50% of the usual ironing time). Thanks to the large ironing shoe and its 45 kg of automatic pressure, you can iron all clothes and fabrics with outstanding efficiency.

IRON A SHIRT IN LESS THAN 2 MINUTES.

## COMPACT AND EASY TO STORE

## SAFE

Elnapress is equipped with an electronic temperature control (90° C to 220° C) and a security system. An electrically-operated alarm and power cut-off deactivates the heating system after 10 seconds in the closed position. There's no risk of burning your delicate clothes. And it turns off automatically after sitting idle for 15 minutes.

FABRICS WON'T LOSE THEIR SHAPE, NO UNWANTED CREASES.

## PRACTICAL

The elnapress consumes very little energy: just 600 to 800 watts, significantly less than a regular iron or a central steam system. The elnapress is compact, easy to transport (10.5 to 12 kg, depending on the model) and to store. It requires practically no maintenance (stick cleaner, change of base cover), which ensures an exceptional life span.

COMPACT AND EASY TO TRANSPORT.
